I consent to the processing of my personal data for the purposes of the recruitment process in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of individuals with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46 / EC (GDPR).

Summary

- I am a dynamic and determined project manager, ready for new challenges and growth in the technology industry. I possess extensive technical knowledge, including proficiency in programming languages, which enables me to effectively verify and support IT projects. I am seeking a stable, inspiring job in an environment that allows me to utilise my project management skills and collaborate with a team of experts. I prefer an office-based role with occasional business trips.
